This range is produced from recycled material. The base of the mount is made from 100% reprocessed ABS. The handles are reproduced from prime material for impact strength but can be returned to recycle in base production.

This traditional stamp is bright and modern in appearance and of a robust construction. The stamp is indexed; you can see the impression you will make through the clear plastic cover on the upper surface of the mount.

Larger stamps are usually supplied on wood moulding **(A)**. To enable easier use where suitable, these include a holding handle for a comfortable grip. They are still available on our lightning service at no extra cost.

Perma Stamp - the original pre-inked stamp. The microporous material contains sufficient ink to give 1000's of impressions. Simply remove the protective cover and the stamp is ready to print. When the impression eventually fades, it can be refreshed with re-inking fluid. We recommend that all perma stamps are refreshed regularly. This will prevent drying out causing contraction and potential damage.
